

ORDOT LANDFILL CLOSURE

Banned Materials & Recycling Guide

With the management of the Ordod Landfill under the Federal receivership of Gershman, Brickner, and Bratton, Inc., a ban on the following materials has been implemented:

Acceptable Materials:	
<ul style="list-style-type: none"> • Residential waste • Commercial waste 	
<u>Banned Materials (Effective 7/17/08):</u>	<u>Recommended disposal sites:</u>
<ul style="list-style-type: none"> • Old Corrugated Cardboard (OCC) and cardboard boxes 	<p>← Guahan Waste Recycling, LLC Recycling Collection Center of Guam</p>
<ul style="list-style-type: none"> • Vegetative, yard and organic waste, (i.e., leaves, grass clippings, tree prunings, large cut waste timber and stumps) • Untreated wood, including construction and demolition lumber or pallets 	<p>← Global Recycling Center Inc. Northern Hardfill Facility</p>
<ul style="list-style-type: none"> • Inert material, including concrete, concrete blocks, bricks, rocks, and other bulky material 	<p>← Global Recycling Center Inc. Northern Hardfill Facility Eddie Cruz Hardfill Facility</p>
<i>Company information listed alphabetically inside</i>	

The ban would decrease the volume of waste that is hauled in to the Ordod landfill, which would prolong capacity until a new landfill can be built. Certain steps must be made to ensure proper waste management, such as waste reduction, recycling, proper disposal of household hazardous waste, litter reduction, and public education. Through the partnerships established between Gershman, Brickner, and Bratton, Inc (GBB), the Guam Chamber of Commerce, commercial and residential haulers, and government and private entities, Guam will be a cleaner place to live in.
